

Chalkwell

Summer 2026 Update

This development in Chalkwell, Essex, is completely transforming a large corner plot on a well regarded road, just moments from the sea front. Previously it was the site of a large detached house with a substantial garden but the developer was granted planning permission to demolish the existing house and construct a new building in character with the rest of the road, to form nine apartments instead of one dwelling.

Work has progressed well to date with some delays. The showflat has been ready for some months and this have paid off by ensuring that four of the nine apartments are already sold subject to contract.

Work has been progressing from the groundfloor upwards, and the flats are all in various states of readiness. The developer is aiming to complete the work in the coming months and the remaining properties are being actively marketed for sale.
